- 4.2 Cameras will not be sited, so far as possible, in such a way as to record areas that are not intended to be the subject of surveillance. The Trust will make all reasonable efforts to ensure that areas outside of the Trust premises and grounds are not recorded.
- 4.3 Signs will be erected to inform individuals that they are in an area within which CCTV is in operation.
- 4.4 Cameras will not be sited in areas where individual have a heightened expectation of privacy, such as changing rooms or toilets.

- 5.1 Prior to the installation of any CCTV camera, or system, a privacy impact assessment will be conducted by the Trust to ensure that the proposed installation is compliant with legislation and ICO guidance.

- 6.4 The viewing of live CCTV images will be restricted to the Senior Leadership Team who will ensure that in doing so, the purposes in 2.1 are satisfied.
- 6.5 Recorded images which are stored by the CCTV system will be restricted to access by members of the Senior Leadership Team as in 6.4.
- 6.6 No other individual will have the right to view or access any CCTV images unless in accordance with the terms of this policy as to disclosure of images.
- 6.7 The CCTV system is checked daily to ensure that it is operating effectively

7 Storage and Retention of Images

- 7.1 Any images recorded by the CCTV system will be retained only for as long as necessary for the purpose for which they were originally recorded.
- 7.2 Recorded images are stored only for a period of 5 days unless there is a specific purpose for which they are retained for a longer period.
- 7.3 The Trust will ensure that appropriate security measures are in place to prevent the unlawful or inadvertent disclosure of any recorded images. The measures in place include:

- 7.4 A log of any access to the CCTV images, including time and dates of access, and a record of the individual accessing the images, will be maintained by the Trust.

8 Disclosure of Images to Data Subjects

- 8.1 Any individual recorded in any CCTV image is a data subject for the purposes of the Data Protection Legislation, and has a right to request access to those images.
- 8.2 Any individual who requests access to images of themselves will be considered to have made a subject access request pursuant to the Data Protection Legislation. Such a request should be considered in the context of the Trust's Subject Access Request Policy.

- 8.3 When such a request is made the Principal or Network/Business Manager will review the CCTV footage, in respect of relevant time periods where appropriate, in accordance with the request.
- 8.4 If the footage contains only the individual making the request then the individual may be permitted to view the footage. This must be strictly limited to that footage which contains only images of the individual making the request. The Principal or Network/Business Manager must take appropriate measures to ensure that the footage is restricted in this way.
- 8.5 If the footage contains images of other individuals then the Trust must consider whether:
 - 8.5.1 The request requires the disclosure of the images of individuals other than the requester, for example whether the images can be distorted so as not to identify other individuals;
 - 8.5.2 The other individuals in the footage have consented to the disclosure of the images, or their consent could be obtained; or
 - 8.5.3 If not, then whether it is otherwise reasonable in the circumstances to disclose those images to the individual making the request.
- 8.6 A record must be kept, and held securely, of all disclosures which sets out:
 - 8.6.1 When the request was made;
 - 8.6.2 The process followed by [INSERT INDIVIDUAL WITH ACCESS TO CCTV] in determining whether the images contained third parties;
 - 8.6.3 The considerations as to whether to allow access to those images;
 - 8.6.4 The individuals that were permitted to view the images and when; and
 - 8.6.5 Whether a copy of the images was provided, and if so to whom, when and in what format.

9 Disclosure of Images to Third Parties

- 9.1 The Trust will only disclose recorded CCTV images to third parties where it is permitted to do so in accordance with the Data Protection Legislation.
- 9.2 CCTV images will only be disclosed to law enforcement agencies in line with the purposes for which the CCTV system is in place.

- 9.3 If a request is received from a law enforcement agency for disclosure of CCTV images then the Principal or Network/Business Manager must follow the same process as above in relation to subject access requests. Detail should be obtained from the law enforcement agency as to exactly what they want the CCTV images for, and any particular individuals of concern. This will then enable proper consideration to be given to what should be disclosed, and the potential disclosure of any third party images.
- 9.4 The information above must be recorded in relation to any disclosure.
- 9.5 If an order is granted by a Court for disclosure of CCTV images then this should be complied with. However very careful consideration must be given to exactly what the Court order requires. If there are any concerns as to disclosure then the Data Protection Officer should be contacted in the first instance and appropriate legal advice may be required.

10 Review of Policy and CCTV System

- 10.1 This policy will be reviewed bi-annually or earlier should the need arise.

11 Misuse of CCTV systems

- 11.1 The misuse of CCTV system could constitute a criminal offence.
